ACCIDENTS TO GAMBLERS.

In their endeavours to escape from the police members of three gambling parties sustained more or less serious injuries on Saturday might. The most serious case was that of an old Chinaman over 60 years t of age who, in attempting to evade the officers of the law, fell from the verandah at 74. Queen's Road East and lost his life. Here six were caught altogether, and at the Magistracy to-day one was fined \$100, another \$50 and the remainder \$4 each. In the two other instances the alarms proved to be false ones, but shough the police did not appear, there were hurried departures made from the premises, which were situate respectively at Jubilee Street. and Hollywood Bead. At the former place one of the party sustained injurios which

RELIGION ON THE CHEAP. Sermon by Bishop Londor.

Presching in St. Andrew's Kowloos, on Soudsy evening the Bishop of Victoria waid that in this yery materialistic age a vigorous restatement of the fundamental tenets of Christianity was needed if men were to realise it aright. Hoo many were inclined to get their religion on the cheap. They wanted to get all they could out of it without making any seturn themselves. That was a totally wrong conception. It was what a man brought to the service of God which benefitted him. If they simply went to church for the pleasure of hearing the same day. the music, for the gratification afforded the senses by the harmony of the service, or the intellectual stimulus excried by a fine sermon, he was afraid that nothing but disappointment was in the and to be reaped. Selfishness should not enter into our religion: To create the proper atracephere which should pervade the House of God it was necessary that all should bear a part, each should contribute his on her share to the praise, prayer, and thanksgiving which was offered in the Courts of their great King and Saviour; it should not be left to the clergy. Hoogkong for the WESTERN or the choir, or one or two of the congress- ASSURANCE COMPANY, we are protion to carry on the work of the church; each must give and of his best. The more the tribute thus willingly, unselfishly and doyally laid at the feet of the Redeemer

the greater the satisfaction to be derived from the practise and profession of their Another thought which the visit of the Wise Men to the manger at Bethlehem suggested to him was whether we realised in such a place as this that we were dreing narrowly observed by those among whom we lived for traces in our lives of the influence of our God and King. The Wise Men whon they reached Jorusalem found the city totally spathetic regarding the birth of Him who had been born King of the Jens, Were there not signs our busy city that Christ was crowded out bere size? He was afraid that the multitudinous interests in which

wa were involved from day to day the calls of husiness, of pleasure, of self-Interest, two frequently shut out the Babe of Bethleham from the scheme of things, and the heathen living around us naturally said wher youring the splendid monuments

Mosers Lamke and Rogge in their Freight Circular dated Saturday, 8th January, state: There is not much change to report. Since issue of our last circular under date of 25th ultimo, only a moderate volume business was consumated, chiefly made by fixtures of tonnage for coal requirements. There is no particular activity in Report of the Directors together with any aspecial trade. Owing to the approach Statement of Accounts for the year anding of Chinese New Year charterers do not feel much inclined to take up any tonnage arriving or discharging port close to the DAY, the 17th January to TUESDAY, the coming holidays, in consequence of which rates in some instances have slightly re- which period no transfer of Shares can be and the WESTERN Division of Kowloon ceded, whilst supply of tonnage seeking employment is gradually increasing. anticipate that there will not be much doing in the way of chartering before

Chinese New Year is post. Esigon/Hongkong, -As for prompt loadng, after the fixture of one boat at 124 cents, the inquiry has altogether died out. For forward loading in February charterers have continued trying to contract for tonnage for consecutive trips, but their attempts have so far proved futile, owners considering the rates held out inadequate and expect to do better by waiting. Saigon Singapore.—Has had a fixture on lump sum outside tonnage, regular liners being sufficient to meet requirements. The Norw. has been no change for the better since last writing. Dalny and Chefoo to Canton .-Unly one fixture has transpired at the reduced rate of 24 cents. The price of beans having advanced considerably, charterers do not care to go into fresh operations for the time being, Yangtze River freights,-Two outside boats have been taken up for Canton on lump sum basis, equivalent to about 16 conts per picul. Timber freights-An inquiry for a suitable boat from Singapore to Shanghal, which has been in our market since the s.s. Ragnar foundared in October last, has now been filled by the s.s. Brand. Col freights .- Coal tonnage from Moji to Hongkong is still difficult to obtain, and fixtures during this fort night have been confined to Japanese tonnage only. The follow-Course: From Aberdeen Docks to the ing rates have been paid:- Karatzu to Hongkong \$1.85, Moji to Hongkong \$1.90, option part Cargo to Canton at \$2.60, Hongay to Canton \$1.80/81.70, Port Courbet (located between Hongay and Haiphong) to Canton \$1.90, Wakamatzu to Swatow \$2.35, Milke to Singapore \$3.00,

31 to Canton \$2.55 per ton.

Mesers Hughes and Hough issue the fol lowing report on the coal trade for 1909:-There has been only very little change between this year and 1908 in the coal market, the prices ruling slightly lower-Contracts made for 1910 show lower rates than those for 1909 and all the principal consumers have had all their requirements for the coming year provided for. The following is a general review for the year. Japanese Coals .-- About 925,000 tons arrived here during the year under review, this being about 75,000 tons more than the previous year. The Mitmi Bussan Knisha, as in previous years, takes the lead, their importations amounting to about 500,000 tons out of which 75,000 tons went to Canton. The Mitsu Bishi Goshi Kwaisha continue to rank second, their total arrivals during the year reaching 125,000 tons. The balance have come to different coal importers, the most important of whom are Messrs. Bradley and Co. and Messrs. Ataka and Co.

Cardiff Coals and Patent Fuel .- The quantity that reached the Colony aggregates about 48,000 tons, out of which the Admiralty had some 20,000 tons discharged here and some 15,000 rous passed through bound North. Several small arrivals amounting in all to 5,000 tons went into the hands of the local dealers. Some 12,000 tons passed through Hongkong bound for Vladisvostock and/or Japan. Australian Coals .- About 46,500 tous arrived during the year, all of which was for consumers. The demand for this coal-

locally has considerably fallen off. The strike, as wired by Reuter in the latter part of the year did not at all affect this market. As per telegram received during the month the strike has now ended. Kaiping Coals .- During the year under review, the Chineso Engineering and Min-

ing Co., Ld., opened a branch office in this port and imported some 52,000 tone; out of which 21,000 tons went to Canton. Hongay Coal. Therearrived about 85,000

tons half of which was for Canton, the balance for local industries. Pulo Laut. - Five steamers with about 18,000 tons arrived during the year and found ready Chinese buyers.

Labuan Coal.-Only one vessek with about 3,000 tons arrived during the year and the coal does not find ready buyers. Sebatik Coal - Three steamers a with about 6,000 tons reached the port and the

coal found ready buyers. These were used

for trials and the teports given seem

China bulks largely in the publishers

ists these tays. Every work seems to

bring forth a book of worts, and also for

the reviewer the great majority seldom at-

tain the standard of even a dull mediocrity

is rather disappointing. Dr Geil had an

admirable subject -The Great Wall of

China-to deal with, but he has failed

to write a satisfying book, though he has

evidently done his best according to his

lights. Perhaps the subject was really too

we see he prefers to call Chin Humg Ti.

his staccato passages are too frequent to

please the average bookish man, while his

supremeself-satisfaction with thecivilization

which has evidently found its finest flower

in Doylestown. Pennsylvania, is rather too

obvious at times. Another sin we must lay

to his charge is that of continually repeat-

ing himself so that one gets tired of the

story long before the end is reached, des-

pite the fact that the great wall of China

" is the greatest fossil on the planet," and

that every other page is headed by a quota-

tion from the Chinese classics, in the char-

actors of Cathay and the small capitals of

Roman printing. We wish we could write

in terms of commendation for Dr Geil made

one or two interesting discoveries in the

course of his investigations and found re-

mains and monuments of the wall in the

least expected places on the Tibetan

Dr Geil is not the first by any means to

be impressed by the majesty of the Great

Wall, but few writers we freely admit have

expressed themselves better with regard to.

"Disappointment generally awaits the

it than he has done in one or two passages.

on it in twilight or in sunlight;

view it through the haze of a dust fog or

the spindrift of a rain shower or between

the flakes of a snowstorm, ever is the wall

past, creating the mountain peak or

reposing in the shady valley. So vast is it,

world at the Equator, they would provide

a wall eight feet high and three feet

thick. When we reflect on the labour

needed to erect it, we slowly divine

the toil exacted from countless thou-

that must have been shed; and we are

prepared to hear that after two-milleniams

the name of Chin is cursed all stong the

Wall by the descendants of those who were

driven to the hateful task, who laboured

in deathly fewe lest when flesh and blood

failed to respond to the taskmaster's

scourge, that flesh and blood should be

hurled into the mass of concrete to provide

more material for the all devouring monster.

The illustrations, which, in the great

majority, are from photographs, give one

an excellent idea of the condition of the

Great Wall to-day from the water's end at

Shanhaikwan on the shore of the Gulf of

Pechili to its western end at Kinyukwan,

Modern Woman and how to manage her,

by Walter M. Gallichas. London, T. Womer Laurie.

In this book the author gives some very

good advice, which, being carefully read,

ought in some measure to assist the sexes

in arriving at some understanding of each

other more particularly after marriage.

Amongst the numerous points dealt with

are the sternal misunderstanding between

the sexes, the accusation that women

nag." After reviewing an exhaustive

list of such "differences," real or im-

aginery, the author says the way

of peace is through the annihilation of the

projudices and preconceptions to which he

had referred and concludes with a fervent

hope "that the fates in their mercy may

still leave us woman, the essential

The strike in the coal-trade which for time almost paralyses business in Au bralia, causing factories to stop, shedrie light and gas plants to shut down ships to be delayed, is now hap pily ended, the men having returned to work. Writing of the situation three weeks ago, however, the Queenstander said :- When every one is penalised by th action of a body of workers in refusing to recognise an award of an arbitration court, and the effect is not confined to those directly connected with the industry, those responsible for the government of the SINGAPORE, PENANG LAMANO, TUESDAY, country must step in. The only regret is that this duty was not regarded at an earlier stage, when feelings had not risen to as high pitch as they now have. The fire could have been quenched when but little flame w the course now pursued had been adopted then. The authority of law and order has been again and again defled by these miners. Coal to the manufacturing world must be considered a necessity, being so essential a factor to motive force. and when the general public is penalised so unjustifiably, and in so many directions, by the organised conspiracy of industria agitators, the right sound of the community must support prempt and effective action in restraint. The constitutional course provided for in the Industrial Disputes Act has been followed, h and a wages board has been nominated in connection with the Nawcastle and Maitland coal miners. The very legislation that was clamoured for by the workers is now regarded with disfavour when its operations embrace them to deal with their illegal. acts. Justice in the meaning given it by some of these agitators would simply mean penalising the employer whenever possible, and be but a one-sided arrange. ment. This unreasonable attitude is prompted by men having political ambitions, who play on the feelings of their follow men. Any appeal for an open conference could have been justified it work had not stopped, and one party to such deliberation been penalised mean. while. The only fair course open to the grievances before a properly constituted and judicial body. To be a law unto themselves, as some of the men have night. desired and attempted, cannot be lightly regarded, and such defiant action must be

On January 4 a candle was overturned in a three-cornered building in the Chinese section of the Escolts, Manile, and before the fismes were extinguished damage to the extent of pescs 700,000 had been done.

Mayor-clect Gaynor of New York has startled his backers in Tammany by appointing to some of the horn-important posts in the city men who do not belong to the organization, but are opposed to Tammany in politics.

Mr Balfour, in snewer to the state ments made by the Radicals that the Unionists sought to impose taxes on food, has emphasized the fact that food is already taxed and that the proportionate contribution to the frevenue by the working classes would not be increased by fiscal reform, while, on the other hand, there would be increased employment.
